DDA 88-2419
15 November 1988

MEMORANDUM FOR THE RECORD

SUBJECT: Certificate of Necessity, Security Evaluation Office,
Key Building, Rosslyn, Virginia

REFERENCE: Memorandum for ExDir from Acting D/L dated 7 November 1988,
OL 13195-88, Same Subject

STAT On this date [] EXO/EXDIR, returned the subject document to me
STAT and requested additional information concerning the attached memorandum from
STAT [] the Assistant General Counsel, Logistics and Procurement Law
STAT Division, OGC, prior to submitting the subject document to the EXDIR for
STAT signature. [] wanted some assurance of the Office of Logistics' intention
STAT to "work out" an acceptable accommodation with GSA prior to carrying out the
STAT renovations. I contacted [] EXO/OL, and he advised me that it is
STAT OL's intention to contact GSA later this week to arrange meetings concerning
STAT an acceptable accommodation. [] also said that GSA views the issue in a
STAT larger context and wants to discuss not just this renovation and building but
STAT others as well. [] did not know how long it would take to reach an
STAT acceptable accommodation, or if they even could. However, they are definitely
STAT going to try in good faith to do so. In the meantime, OL feels we must move
STAT forward on the renovations unilaterally. Also, at [] request I checked
STAT with the DDA to be sure he had seen [] memo and was aware of the
STAT above. The DDA said he had and I was asked to return the subject document to
STAT [] I did so and briefed [] who said he would send it to Mr. Taylor with
STAT a note about OL's intention to work in good faith on an acceptable
STAT accommodation.

[]
Executive Assistant
to the DDA
